

DATA STORYTELLING WITH INFOGRAPHICS

WEBINAR OFFERED TWICE

September 16, 2020 at 4:00PM

October 7, 2020 at 4:00PM

Audience: 6-12 Educators

Register at:

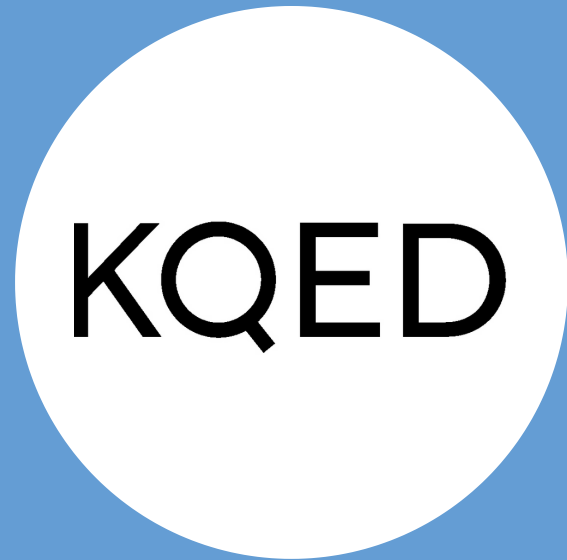

https://kqed.zoom.us/webinar/register/WN_tOpaC9lbS92pZb9XTAvzrQ

The language of visual design offers a powerful way to engage students. How can educators use visual design to help students communicate complex ideas and data through infographics?

In this workshop, attendees will learn about data visualization, hear from an educator who uses infographics in her classroom and get started on their own infographics using a free platform.

Content will be the same at both webinar dates. Choose one.
