EPOCH Equity Leadership Retreats

The Equity Leadership Retreats are designed to support leaders to develop their own capacity to become effective champions of equity. These full day trainings scaffold the work by first allowing participants to define equitable leadership and develop meaning around terms that have become meaningless due to mis and over use. These trainings will also invite each participant to self-evaluate the role their personal history or beliefs may play in the perpetuation or resolution of these issues.

RETREAT 1

Thriving in the USA as
a Racially Conscious
Person

DEC 9, 2019
