2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Mission statement: The Marchus School Counseling and Education Program is committed to providing an integrated program that fosters healthy social-emotional development and rigorous and relevant academic achievement for students with significant behavioral and social-emotional challenges. Students will be educated in the least restrictive environment with the aim of transitioning them back to their school of residence as is appropriate.

School motto: PRIDE - Positive, Respectful, In Control, Dependable and Engaged

The Floyd I. Marchus School Counseling and Education Program (CEP) provides Grades K-12 special education classes for approximately 55 elementary, middle and secondary school students who present a wide range of emotional and behavioral challenges. The program is based at the Floyd I. Marchus School in Concord where there are 9 classrooms, total. Students are referred to the CEP program from the school districts within the Contra Costa Special Education Local Planning Area (SELPA) as well as the Mt. Diablo SELPA, San Ramon Valley SELPA, West Contra Costa SELPA and several districts located within Alameda County.

The intent of the CEP is to help students address their challenges and build capacity and coping skills to reduce negative behavior so that they may return to a less restrictive educational (LRE) setting when appropriate. To that end, the Marchus school teaches rigorous and relevant academic, social, and conflict resolution skills that foster healthy emotional development and academic achievement. Marchus utilizes a variety of behavior management strategies and techniques. Assessment is ongoing and as students progress they are recommended for transition to LRE settings through the Individual Education Program (IEP) process.

Academic instruction is based upon the California Common Core state standards and students are expected to participate in state mandated testing. High school students are expected meet the diploma requirements of their district of residence in order to receive diplomas from their home school district upon graduation.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The textbooks and instructional materials for the Court, Community, and Marchus School have been adopted and approved by the local Board. Every student, including English Learners, within these programs has access to the adopted textbooks for use both in the classroom and at home.

In addition to core adopted textbooks, teachers also use supplemental and remedial instructional materials to address the specific needs of students and to accommodate their various instructional levels. All students have access to the instructional materials they need.

School Facility Conditions and Planned Improvements

There are 19 classrooms on the Marchus School campus with a student library, counseling spaces, multi-use room, and athletic fields.

All students are under direct supervision while in transit to and from school with assistance from transportation personnel. While on school sites, students are under direct supervision from both classified and certificated personnel. Students may be early released only to authorized adults who are required to identify themselves and sign out the student in the main office. Tardy students are required to check in at the main office before going to class with a pass noting their late arrival. Access to school site is restricted, requiring all visitors to check in at the main office for clearance and registration. All facilities and grounds are observed and monitored for unauthorized visitors who are reported to the main office for appropriate action. When visitors are approved to be on campus they are given a temporary badge identifying them as a guest. Volunteers are required to be interviewed and approved by site administration and to register with the central office Human Resources Department and receive TB clearance. All regular personnel are provided with picture I.D. badges for their use. All sites are regularly cleaned and maintained by custodial staff employed by the Contra Costa County Office of Education. Maintenance is ongoing and coordinated with the site principal. More intensive cleaning and maintenance occurs during student break/vacation periods in order to minimize impact to learning environment. Emergency repairs are typically handled in a timely manner.

Adequate and appropriate classroom and playground space is available. Playground areas have been upgraded to current safety codes.

All areas noted below or identified during inspection have been submitted in work orders for repair or review.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	10	N/A	45	N/A	47
Mathematics (grades 3-8 and 11)	N/A	5	N/A	21	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 Career Technical Education Programs

All students, ages 14 and up, have a transition plan as part of their Individualized Education Program (IEP) as required by law. The transition plan, which addresses preparation for the workforce, is developed at the IEP meeting with input from all members of the IEP team. This plan is updated at each student's annual IEP meeting.

CTE Course developed at Marchus School in area of Culinary Arts. Students in high school may take for CTE Credit and elementary students may participate in pre employment skill development.

Students have opportunity for IEP team to determine if CTE or ROP courses at local or home school districts is appropriate to provide opportunities.

All high schools students are provided the opportunity to obtain a discount transit card. Students are assisted in securing other personal documents which may be required for employment.

Students have the opportunity throughout the year to apply for Workforce preparation programs, which include weekly transition skills classes (co-facilitated by a transition specialist, a school social worker and a school psychologist, and Special Education Teacher). Instructional units for all students in special education address career development including work place behaviors, interest inventories, and job interviewing and resume development.

The Workability Program provides support in the areas of job preparation as well as placement in and support in the workplace environment, including our summer work program.

All high school students in grades 11 and 12 participate in weekly transition skills classes, based on study skills, test preparation and test taking strategies. Students are evaluated quarterly with attention given to their progress toward graduation. Students visit community colleges and are referred to each colleges disabled student services department.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents are highly involved in the education of their students through the IEP process. As an IEP team member, each parent participates in the development of annual academic, behavioral and social goals for his/her child.

families receive parent counseling with students through IEP process as well as through informal consultation and collaboration.

Communication with parents occurs regularly via student behavioral contracts, email, or direct phone contact, newsletters and the school's webpage.

Parents are encouraged to volunteer in areas of the education program such as the library and various student activities/events.

In order to obtain valuable feedback and suggestions for improvement, parents are surveyed annually. Information from the surveys are analyzed and used when developing future program goals.

School Plan and Budget is driven by the School Site Council, which includes parent and community input.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	24.64	2.96	2.45
Expulsions	0.00	0.03	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Professional Development

Certificated staff only receive three full days of staff development and classified receive one full day of staff development per negotiated union contracts. Content includes instructional methods, classroom management, and training designed to improve academic instruction in the core curriculum or social-emotional development.

The CCCOE provides 11 half-days of staff development related to instructional methods, classroom management, mandated trainings such as CPI, CPR and First Aide and training to address the core curriculum again based on the union contracts. The content is a direct reflection of the Special Education Program goals, parent survey feedback, state mandated test data and staff needs assessments as related to student performance.

Emphasis on support and professional development for SAVVAS History Social Science Curriculum adoption as well as PBIS and SEL .

The CCCOE offers support to teachers through a variety of programs, as determined by need. The CCCOE Teacher Induction Program provides a collaborative model of support providing a pathway for teachers to clear their credential. Another relatively new teacher support program was created for those teachers who may be new to their assignment. This program is called the New Assignment Mentor Support (NAMS) program and both veteran and new teachers may be eligible. Finally, struggling teachers may be referred to the TIPS program as a result of an unsatisfactory evaluation. Also, a website has been developed to help all teachers access quality instructional lessons and links to existing exemplary programs. Methods of professional development may include after school workshops individual conferences, peer coaching, classroom visitations, veteran teacher observation and attendance at professional development conferences and meetings.

This table displays the number of school days dedicated to staff development and continuous improvement.
